- A. No person shall accumulate, store or place, or permit the accumulation, storage or placement of “junk”, as defined by this Ordinance, outside on any property, private or public in the Township, for more than sixty (60) consecutive days during any calendar year, unless such property has been designated as a state licensed landfill or is a property for which a valid junkyard permit issued by the Township is in effect.
- B. The storage of “building materials” as defined by this Ordinance, by a person, outside of a completely enclosed building in any area for a period of thirty (30) days is prohibited. This prohibition shall not apply to building materials used for a legally operated business on the property or to building materials stored on the site of property for which a valid building permit has been issued and where such building materials are legitimately intended for use in connection with such permitted construction.
- C. Abandoning, leaving, keeping or maintaining a junk or inoperable motor vehicle, vehicle, vessel or trailer as provided in Article 2.

- H. Outdoor burning of garbage, treated wood, household trash containing plastic, rubber, foam, textiles, electronics, chemicals or other hazardous materials.

**Section 1.03: Abatement; notice, authority of officers**

This Ordinance may be enforced by the Montcalm County Sheriff (as to sections 1.02(A), (B) and (C) and Article 2), the Township Zoning Administrator, the Township Supervisor, or any person designated by the Township to enforce the provisions of this Ordinance.

A violation of this Ordinance is hereby declared to be a nuisance per se. In addition to any remedies available at law, including penalties outlined in section 1.06, the Township may seek injunctive relief against the violator including, but not limited to, entry upon the premises in violation and remove the violative condition thereof.

All remedies available to the Township under this Ordinance and under Michigan law shall be deemed to be cumulative and not exclusive.

**Section 1.04: Public Nuisances; Emergency Abatement; Costs**

The Township or its agent may act to abate a public nuisance when the violation is of a nature that presents an immediate or extreme danger to life, safety or public or private property. Such nuisance may be removed immediately by the Township or its agent and all costs of such removal, damages or expenses, attorney fees incurred as a result of the emergency abatement by the Township shall be a lien on the property. The lien may be enforced in the manner prescribed by the general laws of the State providing for the enforcement of tax liens.

**Section 1.05: Abatement; Costs**

All expenses incurred by the Township or its agent in repairing, tearing down, abating or otherwise removing a public nuisance under this Ordinance shall be charged to the person responsible therefor, the occupant of the land in question or the person who appears as owner or party in interest upon the last local tax assessment records of the Township. If said person fails to pay said charge within 30 days after a statement therefor is mailed to him, the amount of expenses incurred by the Township in repairing, tearing down, abating or otherwise removing the public nuisance may be paid from the Township general fund and the amount thereof assessed against the lands on which said expenditures were made on the next general assessment roll of the Township and shall be collected in the same manner as other taxes are collected. The Township shall have a lien upon such lands for such expense, said lien to be enforced in the manner prescribed by the general laws of the State providing for the enforcement of tax liens.

The Township may institute an action in a court of competent jurisdiction for the collection of a judgment imposed by a court order for a municipal civil infraction. However, an attempt to collect the judgment by any process does not invalidate or waive the lien upon the property.

### **Section 1.06: Penalties**

Violations of the provisions of this Article and Article 2 shall constitute a municipal civil infraction. Any person who is found responsible or admits responsibility for a municipal civil infraction shall be subject to a civil fine and costs. The civil fines are set by Resolution of the Township Board unless otherwise specified. Further, the judge or district court magistrate shall summarily tax and determine the costs of the action, which are not limited to the costs taxable in ordinary civil actions and may include all expenses, direct and indirect, including attorney fees, to which the plaintiff has been put in connection with the municipal civil infraction, up to the entry of judgment. However, in no case shall costs of more than \$500.00 be ordered. Each violation shall be considered a separate offense.

Any second or third subsequent offense after the first offense shall constitute a misdemeanor subject to a fine of no more than \$500, nor more than 90 days in jail, or a combination of both.

The operation of any such set, instrument, phonograph, machine or device in such a manner as to be plainly audible on real property or in a dwelling unit other than that from which the noise originates or emanates shall be prima facie evidence of a violation of this section.

This Article shall not apply to agricultural or related seasonal type or work that is of a timely nature, such as crop planting, tending crops and harvesting crops or timbering. ### **Section 3.04: Variance**

The Township Board or its agent may grant an applicant a variance of this section to permit construction noises during hours otherwise prohibited hereunder, after notice and hearing, upon a showing that compliance with this section would constitute an unreasonable hardship on the applicant, on the community or on other persons.

### **Section 3.05: Penalties**

Violations of the provisions of this Article shall constitute a municipal civil infraction. Any person who is found responsible or admits responsibility for a municipal civil infraction

shall be subject to a civil fine and costs. The civil fines are set by Resolution of the Township Board unless otherwise specified. Further, the judge or district court magistrate shall summarily tax and determine the costs of the action, which are not limited to the costs taxable in ordinary civil actions and may include all expenses, direct and indirect, including attorney fees, to which the plaintiff has been put in connection with the municipal civil infraction, up to the entry of judgment. However, in no case shall costs of more than \$500.00 be ordered. Each violation shall be considered a separate offense.

No person shall hereinafter own, maintain or operate within the township a junk yard, or place for the dismantling, wrecking, and or disposing of refuse materials of automobiles, without first having secured a license to do so from the township clerk, except existing licensed junk yards and industrial parks. Any person allowing two or more junk automobiles upon property owned by him or under his control shall be deemed to be carrying on the business of storing junk automobiles.

### **Sec. 4.02: Application for License**

The Township Board shall cause an investigation to be made as to the suitability of the site and fitness of the applicant as to character and ability to conduct such business. If, in the opinion of the Township Board, the person making application is a proper person, the place to be used is suitable for such business, and such establishment does not otherwise violate the law, said board may authorize the granting of a license by the Township Board upon the payment of the license fee and provided in this Article. The Township Board, may in its discretion, refuse to grant the license provided for in this Article. All officers charged with making the investigation as provided for in this section shall have free access to all parts of the premises for which license has been applied, and a refusal to give such access by any person in charge of such premises shall be sufficient cause for a denial of said license.

- (b) Prior to the issuance of a license to any applicant, such applicant shall furnish the Township Board with a notarized statement from all residents and property owners within a distance of one (1) mile of the proposed site, indicating that said property owners and residents have no objections to the granting of such a license.
